KNIGHT INLET HELISKIING NEW OPERATOR

REVELSTOKE MOUNTAIN RESORT

CHRISTMAS 2007 NEW YEARS 2008

This season there was a definite shift in weather patterns as we seen with unlimited snowfall in the West and absolutely nothing in the East until mid season, and in Europe where many of the resorts were without snow at the end January. Overall, skier visits throughout the heliski industry in British Columbia remained very strong with many of them booked pre-season.

Pre-season bookings are not new to the industry, prior to 9-11 heliski enthusiasts needed to secure package dates far in advance. There seems to be that same momentum developing and it would not surprising to see this trend to be the norm once again. I have found, over the years, it is never to early to begin the process of working through the decisions that will eventually lead to securing a early reservation.

Heliski Holiday is Nina, and with Nina what you get is 5 star service, good advice on sites she has visited, up to the minute information on availability and conditions. She also clearly has some very good links with the operators as she gets back with information from them very quickly. She obviously loves the mountains and what she does...

Europeans take not: the famous North American high level customer service is really in evidence when you consider she is at work by 5.30 am her time to help us on the old continent get some quality snow....Thanks again.

Georges Gurkovsky - BOLVARIA Last Frontier, Ripley Creek 09-16 March 2007.

R

Your services were very helpful to me, as it would have cost me a considerable amount of time to piece things together by myself.

LAST FRONTIER Heliskiing @ BELL 2

TLH Heliskiing @ Tyax Lodge, Last Frontier Heliskiing @ Bell 2 Lodge or Last Frontier Heliskiing @ Ripley Creek—could this be the operator for you?

“Every season brings us new experiences both in the way of guests and skiing conditions, and for the most part both are beyond our control. Exchange rates can heavily effect where our guests come from and while we do our best to operate in an environmentally conscious manner it doesn't always mean we have perfect snow conditions and blue skies day in day out. This year is no exception we have been thrilled by record levels of guest satisfaction and some truly epic skiing conditions”.

Mike Watling, General Manager 2007

Destinations to be considered as one of the all round heliskiing/boarding operators in British Columbia

Who knew DOWN DAYS they could be so much FUN!"

KNIGHT INLET HELISKIING

SEA LEVEL TO MOUNTAIN TOP

Take 1,000,000 acres encompassing the highest mountain in BC and the largest glacier system south of Alaska, combine with the Ferrari of high altitude helicopters and a pilot with over 20 years experience in high altitude flying, add a guide with over 20 years experience ski guiding all over the world, toss in a 120 foot Italian built luxury yacht complete with outdoor hot-tub, gourmet cook and kitchen and helipad, add a jet boat and other aquatic toys for après ski or down time, fold in the incredible hospitality of the Dawson family and their knowledge of the area gleaned from 30 years of exploring this beautiful area, season liberally with prawn and crab traps and fly

fishing the numerous streams and rivers and you have a recipe for the adventure of a lifetime- whether it's first ever descents on the countless un-named peaks and glaciers, fly fishing for bull trout and sea-run cutthroat trout or just sitting on the foredeck watching the porpoises and bald eagles.

Dave Sabey March 2007

We just returned from a week with the Dawson Family at Knight's Inlet and what a great adventure we had. The April weather presented some challenges, but the Dawson's managed to keep us entertained. We were aboard the Astral Star for 7 nights – who would have thought a 120' ship could live as large and comfortably as she does –

and I would guess we all gained 10 lbs or so due to Emme's great cooking. The magic of the Knight's Inlet experience is being in a remote area, with a small group of friends, skiing terrain that has for the most part never been touched. This is not your standard "cattle car" heli operation – this is very exclusive and very special – and I am sure will remain that way under the Dawson's stewardship.

I look forward to returning to Knight's Inlet soon with another group of friends prepared to truly have an "adventure of a lifetime" while enjoying the Dawson Family's tremendous hospitality

Jon-Eric Greene March 2007

KNIGHT INLET true west coast adventure, with great towering mountains rising straight out of the sea, cascading waterfalls and waterslides, and a history rich in native culture
